your style.

The new
BlackBerry® Style™

Your style,
made more powerful.

The new
BlackBerry Style 9670 smartphone

Your style is authentic to who you are. If flip is the form that suits you, then choose the most capable flip available. The new BlackBerry® Style™ 9670 smartphone grants you the full power of BlackBerry in the familiar comfort of a flip. It's your style made more powerful.

The familiar form has been re-designed with a large internal display and QWERTY keyboard. You can expect superb messaging and organization capabilities. Real-time chats with BBM™ and social media feed integration keep you engaged with your friends. While universal search, intuitive web browsing and enhanced multimedia keep you engaged with everything. GPS, Wi-Fi® and tons of Apps help make this the most useful flip phone ever. And being useful is so much more your style.

BlackBerry

Definitively you.

An evolution in flip

Whatever you love about flip phones, stick with it. Because now, we've brought all the power of BlackBerry® to the style you prefer. The external screen means you've got details at a glance - so you can see who's calling and preview incoming messages while you get on with your day. The internal display gives you the same full screen view that comes with other full QWERTY BlackBerry smartphones: it's huge, bright and easy on the eyes. You've got a full QWERTY BlackBerry keyboard to work with and smooth optical trackpad to navigate your way.

Better than ever with BlackBerry® 6

Talk about simple setup with the BlackBerry Style. You'll breeze through it, and right away, your smartphone begins to recognize your preferences. Graphical menus welcome you and intuitive navigation gives you the freedom to explore with ease. While you're at it, catch up on your social networking updates in one view with social feeds. You get all the features you're after, plus fantastic web browsing and multimedia experiences - so you can access the content you want without messing around. Speaking of saving time: with universal search, you can comb through everything on your smartphone - and even launch a web search - instantly.^{2,3}

Open up the full power of BlackBerry®

The BlackBerry® Style™ 9670 smartphone is loaded with the tools that suit your style. You've got a 5 MP camera built right in, so you can grab great-looking shots anytime. Factor in GPS so you can get where you're going, 3G for fast downloads and browsing, and 512 MB of memory that makes the BlackBerry Style super-responsive. Let's not forget Wi-Fi® - another great way to connect to it all. And with a battery that's designed to keep on going, you've got the power you need to get everything taken care of.^{1,2,3,4}

Connect in real-time, anytime on BBM

When you want the comfort that comes with a real-time connection to your friends and family, you need BBM™. Whether you're planning a night out, a weekend away or

just touching base, BBM is your instant connection to all the key people in your life. It's an amazing way to take real-time communications to the next level. Plus, you'll always know what's up at the other end: a "D" appears on your screen when a message is delivered and an "R" appears when it's read so you're never left hanging.^{2,3}

All media, all the time

Carry, watch and share your videos, pictures, files and more. With BlackBerry® 6, we've completely overhauled the multimedia experience on your BlackBerry® smartphone. With the ability to sync music over Wi-Fi® using BlackBerry® Media Sync, you can now access your home music library right from your BlackBerry smartphone. Scrolling through your music is as easy as swiping through your album art. And you can watch and subscribe to podcasts that are pushed to you as soon as they're available. Plus, with 8GB of memory to store all kinds of files, killing time could turn into a killer idea.^{3,5,9}

Multitasking made easy

Multitasking is another one of those things that BlackBerry® smartphones have been doing right, from the beginning. You can jump between applications in a flash. And thanks to a little piece of magic we call multi-connectivity, your apps can stay connected whether you're using them or not. So whatever you're up to, emails, messages, updates, and notifications can keep coming through. And it all happens using less of your battery life. So go ahead, do it all - at once.³

Get personal with it

Get inspired with a variety of apps designed just for BlackBerry smartphones from BlackBerry App World™ and put your ideas into action. Express your own personal style with custom ring tones, notifications, wallpapers and themes. Finally, dress it all up with BlackBerry® Authentic Accessories like headsets and cases.^{7,8}

1. Times vary by network. CDMA times are based on CDG 89 suburban specifications. Actual results may vary. Many factors affect battery life including but not limited to network, transmission environment, battery age, usage, location, software and feature configuration.
2. Check with your service provider for roaming arrangements, service plans, and supported features and services.
3. Requires activation with appropriate data plan. Check with service provider for availability, costs and restrictions.
4. The BlackBerry Style smartphone supports Wi-Fi 802.11 b/g/n. Not all BlackBerry plans support Wi-Fi® access to BlackBerry services. Check with your service provider for availability, costs and restrictions.
5. For a complete list of supported media file formats visit www.blackberry.com/go/mediatypes
6. The BlackBerry Style 9670 smartphone accepts microSD cards up to 32GB in size; the amount of storage is determined by card capacity. microSD cards may be sold separately.
7. Supports all A2DP Bluetooth® accessories.
8. Use only those accessories approved by Research In Motion. Using any accessories not approved by Research In Motion for use with your BlackBerry smartphone may invalidate any approval or warranty applicable to your BlackBerry smartphone and may be dangerous.
9. 1 gigabyte (GB) = 1 billion bytes. Some of the stated capacity is used for formatting and other functions, and accordingly is not available for data storage.
